ONE-PAGER · FOR CLUBS

LED floodlighting for your club

The key points for the board and members' meeting on one page.

75+	15+	at least 7 years	3000 K
SPORTS GROUNDS	STADIUMS	WARRANTY, DEPENDING ON THE PROJECT	POSSIBLE WITH ALL PRODUCTS

No guarantee of funding. Whether funding is granted, and how much, is decided solely by the funding body. All information is non-binding. We check suitable programmes but cannot promise approval.

Arguments for your meeting

- Electricity: municipal projects report around 40 to over 75% saving with LED. No promise for your facility.
- Old system: there is currently no fixed ban on HQI. The mercury exemption applies until 24 February 2027, and an extension has been requested.
- Neighbours: light control, shields and shorter operating times are effective. This belongs early in the planning.

How it works

1. **Need**
   Clarify training, match play, league and ownership of the facility.
2. **Resolution**
   Board or members' meeting, clarify signing authority.
3. **Planning**
   Lighting calculation and quotes.
4. **Funding**
   Clarify programme and sequence with the funding body, then submit the application.
5. **Implementation**
   Order, delivery and installation, proof to the funder.

What you get from us

- Lighting calculation with real luminaire data
- Dimensions and weights for checking the masts
- Delivery, with installation on request
- Scenes for training and matches
- Check of suitable funding programmes

Experience

75+ sports grounds and 15+ stadiums, including ETUF e.V., VfR Steinbach and FC Eilenburg.
